SUMMARY

Data analyst and BI professional with experience in Qlik Sense administration, Power BI reporting, dashboard development, and risk coordination at State Street since September 2025. Skilled in Python, SQL, ETL, data modeling, analytics, and reporting automation, with a strong track record of improving data accuracy, reducing reporting time, and delivering actionable insights. Strong in stakeholder support, data quality, and business reporting for decision-making.

CORE SKILLS

- Data Analysis and Reporting
- Power BI, Qlik Sense
- SQL, Python, Pandas, NumPy
- ETL / ELT, Data Pipelines
- Dashboard Development
- Data Modeling, Data Warehousing
- Risk Monitoring and Coordination
- Data Quality Assurance
- Statistical Analysis, Regression, A/B Testing
- Machine Learning and Predictive Analytics

EXPERIENCE

Apprentice – State Street

Sep 2025 – Present

- Managed 210+ applications and 25,000+ vulnerabilities, tracking 10+ risk items under strict deadlines.
- Coordinated remediation efforts across teams to achieve 90%+ closure of identified risk items.
- Used **Power BI** to analyze compliance data and create dashboards for vulnerability and remediation tracking.
- Supported **Qlik Sense administration**, including report reruns, publishing, and trigger setup

Data Analyst Intern

Innobyte Services, Hyderabad | Aug-Sep 2024

- Cleaned and analyzed 150,000+ sales records using Python & Power BI, increasing accuracy by 30%.
- Built dashboards, reducing reporting time by 25%.

Data Science Virtual Intern

CodeAlpha (Remote) | Feb-May 2025

- Developed data preprocessing pipelines, improving ML readiness.

- Delivered 3 projects under strict timelines.

AI Intern

CollegeTips.in, Hyderabad | Jul-Aug 2024

- Built ML model detecting fake news with 92% accuracy.

PROJECTS

Security Vulnerability Remediation Dashboard

Built a Power BI dashboard to analyze security compliance data for 210+ applications and track 25,000+ vulnerabilities, open risk items, overdue actions, and remediation progress.

Risk Item Tracking and Closure Analysis

Monitored 10+ risk items across different deadlines and analyzed remediation trends to support escalation and timely closure.

Qlik Report Monitoring Dashboard

Developed a dashboard to track Qlik report reruns, publishing status, trigger execution, and failures.

Compliance Operations Dashboard

Created a dashboard to track open, closed, and overdue compliance items across teams.

Escalation and Follow-up Workflow Tracker

Built a workflow tracker to manage assignment, escalation, follow-up, and resolution of compliance items.

CERTIFICATIONS

- IBM SPSS Level 1 Certified Specialist | 2025
- Google Cloud Data Analytics | 2025
- Deloitte Data Analytics Simulation | 2025
- JPMorgan Quantitative Research Simulation | 2025
- Python for Data Analysis (IBM SkillsBuild) | 2023
- Power BI Visualization (Great Learning Academy) | 2024
- Backend Development Course (Pw Skills) | 2024

EDUCATION

B.Tech, Artificial Intelligence & Data Science

St Peter's Eng. College | 2021-2025

CGPA: 8.0/10 | Relevant Coursework: Machine Learning, Data Mining, DB Management

LANGUAGES

Telugu, Hindi, English (Fluent)
